

TungLok Millennium Pte Ltd

COMMITMENT TO SUSTAINABLE PALM OIL CONSUMPTION

TungLok Millennium Pte Ltd is committed to ensuring that 100% palm oil used on all our properties are certified sustainable, recognising the social and environmental importance of supporting the production of sustainable palm oil.

TungLok Millennium Pte Ltd's commitment includes:

- By 2018: 100% of palm oil used for direct cooking on its properties will be certified sustainable from segregated sources by SASPO's recognised certifying body.
- By 2025: 100% of food products containing palm oil or palm oil derivatives used on its properties will be certified sustainable from segregated or mass balance sources by SASPO's recognised certifying body.

In order to achieve our commitment, we shall:

- Communicate our palm oil commitment with our suppliers to enquire on their usage of certified sustainable palm oil in their products by 2018.
- Document the use of palm oil and palm oil derivatives on all properties, including:
 - quantifying the volume of palm oil used as cooking oil by 2025;
 - identifying all food products used that contains palm oil and/or palm oil derivatives as an ingredient by 2025;
 - identifying all non-food products used that contains palm oil and/or palm oil derivatives as an ingredient by 2025.
- Inform our suppliers who are not certified sustainable the intent to source from sustainable sources by 2025.

We will work towards ensuring that all palm oil and palm products that all production processes are aligned with the above commitment subject to market availability and ease of procurement of products containing sustainable palm oil. We are also a member of SASPO and will work together with other members to support the production, trade and usage of sustainable palm oil.
